educate & elevate

SPCS programming is rooted in the Catholic faith and choir school tradition. Classes include religious ed, rhetoric, music theory, Latin, and writing workshops in addition to math, history, science, and English language arts

Within our community of faith, camaraderie, and integrity, students prepare to succeed in the strongest secondary schools, become confident and virtuous leaders, and grow into compassionate, caring adults.

Saint Paul's Choir School provides boys in grades 3-8 an extraordinary learning experience that integrates rigorous academics with the performance of choral masterworks.
