OUR JOURNEY IN THE FAITH: This time about a year ago, marks our introduction to the Traditional Latin Mass At the time, we were looking for an evening Mass in the area. So we googled and found St. Victor's Parish in West Hollywood and saw that they had a 7pm schedule. Imagine our surprise when Mass began. We were regular Novus Ordo Mass goers, but we went again for Latin Mass the next Sunday after that. Two weeks later, we attended Mass in the Ordinary Form of the Roman Rite. After Mass, my children surprised me by saying that they preferred to hear Mass at St. Victor's in Latin. My husband at first didn't appreciate the Latin Mass due to the language barrier, but now, he always seeks for one whenever he's out of town.

Fast forward a few days later, we started going to the Latin Mass not only on Sundays but also on weekdays. Although we've been attending Latin Mass, we didn't know how to use the Missal properly and were quite confused. Luckily enough for us, a kind and very welcoming soul approached us and patiently taught us the use of the Missal and where to find the readings for the day. Let me have this opportunity to thank E [REDACTED] A. She may not know this, but my family and I owe her a lot for tutoring and further cementing our stay in the Extraordinary Form of the Roman Rite. My eldest son was inspired to serve in the sanctuary after attending the one week Altar Server Training provided by Rev. Luc Poirier, FSSP at the St. John Chrysostom Parish and my younger son followed suit. Grateful also for Fr. Fryar for the encouragement and Fr. Masutti too, for inspiring the boys to serve reverently in the Sanctuary.
