

30 May 2025 • Pope Saint Feliks I (Martyr)

THE BRAVE martyr, FATHER ISAAC JOGUES, on 14 August 1642 had his left thumb sawed off at its root by the Iroquois. (The other sufferings he and his companions underwent are too horrendous to describe.) Imagine going through life after several of your fingers have been cut off. Imagine how irritating it would be to accomplish even the simplest task when you're missing your fingers. Now, it's true that I don't like asking for financial assistance—but when I consider how much the martyrs suffered, it gives me strength and bravery.

At this time, I beg for your help.

If you aren't a monthly donor, we desperately need your support of \$5.00 per month.

<https://www.ccwatershed.org/help/>

Unless we're able to get 70 new subscribers, we won't be able to meet our goals.

As you know, the cost of everything in America has gone up. For example, our video platform (VIMEO) used to be free—but they recently raised its cost to **\$300 per year**.

All companies in the United States are raising their prices in an outrageous way.

Each year, we do one (1) fundraiser ... **and each year, wonderful Christians like you save the day**. You never let us down. The generosity you show is breathtaking. We have no endowment; we have no major donors; we run no advertisements; we have no savings. There's so much more we wish to do. We really feel as though we've only begun!

We never want to put any of our content behind a paywall.

We consider it essential that our content remains free to all, with zero ads and a minimum of obnoxious financial appeals and “pop up” windows.

Thank you
so much!

Sincerely, in our Lord Jesus Christ,

Jeff Ostrowski
